

ANIMAL FRIENDS BINGO

HOW TO PLAY

1. Download and print the score cards and labeled animal cards. Make sure to choose the landscape orientation and a borderless option if available. Alternatively, you can select "Scale to fit media."

2. There are 4 score cards included. Cut along the center line to separate the score cards.

3. Cut apart the 35 labeled animal cards and place in a bowl or paper bag.

4. Supply each player with "markers," which can be little stones, pieces of paper or coins, etc. Or players can "X" out the animals that are called out.

5. Randomly select a labeled animal card from the bowl or bag and call out the animal. The first player to get 4 in a row wins!

Bonus: If you print two copies, the labeled animal cards can turn into a matching game!
